Marty,

Ford's 2013MY Chassis Certified Diesel initial AECD submission has been posted to EPA-Verify.

Significant changes for 2013MY from 2012MY and in some cases, supporting data, are highlighted through the use of red text and underlining.

Additionally, three previously stand-alone AECDs were incorporated into the AECD for Base Operation for streamlining.

These AECDs are:

•
•
•

CBI / Ex. 4

Please let us know if you have any questions regarding these.
